**Colpitts World Travel Raises \$100,000 for
Local and National Charities in 2007**

Dedham, Mass., Feb. 7, 2008— Colpitts World Travel, headquartered in New England, raised more than \$100,000 in 2007 for various local and national charities with the hope of making a difference. Colpitts is actively involved with the Jimmy Fund, the Asthma Foundation and the Marine Toys for Tots Foundation. The agency also contributes to MADD and a local hospice organization.

“Our agency works with these organizations because they make a difference,” said Alan M. Krensky, president and CEO of Colpitts World Travel. “This is the best way to give back to the community that has been such an important part of our business for the last 110 years. We feel honored to contribute to these exceptional foundations.”

This fall Krensky will co-chair its 19th charity golf tournament with proceeds going to the Jimmy Fund. The Jimmy Fund was founded in 1948 to help children and adults who are battling cancer at Boston’s Dana-Farber Cancer Institute. This event raises more than \$50,000 each year and continues to be well-received by the greater Boston community.

On a local level, Krensky serves on the board of directors for the Asthma Foundation and was the organizing chairman for the 2007 Asthma Foundation dinner, which raised \$60,000. This organization carries great value, as several members of Krensky’s immediate family live with asthma. Colpitts is a well-known collection center for Toys for Tots and understands that its central location makes it easy for people to get out and donate toys to area children around the holidays. Each year, Colpitts contributes to MADD and a local hospice organization as a sign of its appreciation and belief in the work that each organization carries out.

“This isn’t about us. It’s about the corporate world and how it can and should play a pivotal role in bettering the lives of others,” said Jeanne Johnston, Executive Vice President of Colpitts World Travel. “When companies take an active role in raising money or volunteering their time, they foster community togetherness and the belief that working together is better than working alone.”
