GetThere Adds Three Prominent United Kingdom Business Travel Agencies to Reseller Programme

LONDON--(BUSINESS WIRE)-- GetThere®, the world's leading online business travel procurement solution, today announced the signing of three U.K.-based travel management companies to reseller agreements. Two of the firms, TD Travel Group and TMG Corporate, are included among the U.K.'s top 30 TMCs. **Edinburgh-based Colpitts World Travel is a wholly-owned subsidiary of U.S.-based Colpitts World Travel Inc.** The three agencies cumulatively manage more than £75 million in air spend.

GetThere, a Sabre Travel Network business, now has more than 20 corporate agency resellers in Europe, complementing the continuing global growth of GetThere's reseller programme. GetThere, with self-booking deployments in 60 countries, now has more than 125 resellers worldwide.

GetThere will highlight its technology and industry-leading service infrastructure at stand number 331 at this week's Business Travel Show in London, including its new relationships with leading global expense management providers. More than 3,000 companies worldwide use GetThere, including more than half of the Fortune 200 that use an online booking solution.

With nearly 25 years in the industry, TD Travel Group is one of the UK's leading independent TMCs, serving corporations across Europe.

GetThere's consistent investment in both product and service dovetails with our approach, said John Owen, managing director of TD Travel Group. The current economic climate has more corporates approaching us for options on harnessing the benefits of self-booking technologies; GetThere's seamless interface and point-of-sale messaging capabilities give travel managers tools they need to drive increased policy compliance and use of preferred suppliers.

In addition to signing with GetThere, the three agencies also renewed their Sabre GDS agreements. In the current global recession, with corporations and TMCs striving to maximize the value of their travel spend, the Sabre-GetThere combination delivers a compelling mix of proven systems that maximize efficiency and savings.

Travel management companies across Europe are aggressively seeking best-in-class technologies and

service to help clients navigate today's economic storm, said Jason Geall, director of GetThere EMEA. Corporates and their TMCs are looking for flexible options that suit their specific managed travel needs and provide maximum value. Sabre and GetThere's refined processes have the configurability to work seamlessly with multiple suppliers, including meetings, rail and expense providers, giving TMCs services they need to serve clients big and small.

About GetThere

GetThere is the world's leading global online business travel procurement solution, surpassing \$9 billion in bookings in 2007. GetThere's proven technology and unparalleled global service infrastructure helps corporations collectively save millions in air and hotel costs.
